

# Pot & Pan Compact Washer

The compact solution that reduces costs  
without compromising performance.

## Extra savings

The highly efficient 4.7 liter wash allows you to save up to 30% in water and rinse aid (per cycle\*) whilst still being powerful enough to tackle the toughest dirt.

## Superior washing performance

Say goodbye to stubborn residues. Our performant system – featuring an additional 3-side washing arm and adjustable water pressure – ensures complete coverage with no missed corners.

## Easy programs, easy access, easy work-life

Need to wash different types of tooling? Yes, you can! Select the cycle that best fits your needs - 90, 120 or 360 seconds. Daily cleaning is made easy thanks to a fully accessible design.

## More capacity & flexibility in less space

Also designed for compact kitchens while offering a high loading capacity that even accommodates larger items. Go greener! A dedicated reusable-items cycle helps support sustainable cleaning practices.

# Built to keep operations moving fast in food service industry

As kitchen spaces shrink and productivity demands grow, dishwashing areas must work faster. That means eliminating the manual washing of heavily soiled items such as kitchen tools, pans, or fryer baskets.

## Smarter washing, lower costs

Enjoy up to 30% savings in water and rinse aid so running costs won't slow you down. And now, washing heavily soiled items no longer means excessive water usage.

## Easy and comfortable operations

Designed for maximum operator comfort, the front door of the Pot&Pan Compact folds down 180 degrees for easy access. All internal components are quick and easy to clean.

## Powerful cleaning performance

Powerful and efficient cleaning is also achieved on deeper pans, thanks to the adjustable water pressure system. Spotless results are delivered anytime with the continuous prewash mode—even on the toughest, heavily-soiled items. **The WASH SAFE CONTROL** guarantees efficiency, safety and hygiene.

## Compact design for any layout

Designed to suit different environments—restaurants, fast casual locations, and compact kitchens—even where space is limited.

Ideal for washing GN containers, utensils, full-sheet pans, GN2/1, trays, baking sheets, butchery tools, and breading station components, all without manual scrubbing.

The wide base support also fits 500×500 mm racks, allowing dishwashing when needed.

## Dedicated Solutions for Reusable Tableware

### From wash to dry: combine the Pot&Pan Compact with HeroDry

Your operators can focus on other tasks while the Electrolux Professional Pot&Pan Compact efficiently handles the washing of reusable cups and tableware, and HeroDry – our free-standing blower – provides fast and effortless drying. This combination delivers a smarter, more efficient workflow for operators and the entire kitchen system.
